Acceleration allows students to potentially increase their ATAR and is not used as a way to reduce a course load in Year 12. All students are expected to complete 5 studies in their final year.

- All students who wish to accelerate in a study must complete this application as part of the approval process.
- Acceleration is determined by academic achievement at expected level for all subjects, and above expected achievement level for English and any related acceleration subject.
- Acceleration is also determined by consistent demonstration of positive learning behaviours (Progress Reports).
- Completion of S.E.A.L subjects will be given consideration during this application process.
- All student applications to accelerate will be confirmed on or prior to Course Selection Day.
- Please note, continued acceleration is not automatic. Academic benchmarks must be met to enable continued acceleration.
